F. M. Roberts, M. Steinke, E. Baum, D. Molbo, M. M. Bell, I. G. Mauksch, G. H. Mateo, E. Van de Steeg.

SPECIAL LECTURERS

ANDREWS, ALBERT H., JR.

Lecturer in Laryngology

N. U. Med. School, 1933. Intern St. Luke's Hospital, 1932-33. Associate Attending Bronchologist, Children's Memorial Hospital; Associate Clinical Professor of Broncho-esophagology; Chief of Bronchological Eye and Ear Infirmary; Associate Attending Bronchologist, St. Luke's Hospital. Certified by the American Board of Otolaryngology. Fellow A. M. A. Member American Broncho-esophagological Society.

BEEBE, ROBERT A.

Lecturer in Gynecology

U. of I. Col. of Med., 1939. Intern Ravenswood Hospital, Chicago, 1939-40. Intern Chicago Maternity Center, 1940; Intern Lying-In Hospital, Chicago, 1941-42; Resident, St. Luke's Hospital, Chicago, 1942-45; Gynecologist to Out Patient Department, St. Luke's Hospital, Chicago; Assistant Attending Gynecologist and Obstetrician, St. Luke's Hospital, Chicago.

BIGGS, ALFRED D.

Lecturer in Pediatrics

Rush Med. Col., 1922. Intern St. Luke's Hospital, 1922-23. Licentiate of the American Board of Pediatrics, 1938. Associate Professor of Pediatrics, N. U. Med. School. Attending Pediatrician, St. Luke's Hospital. Fellow A. M. A. Member American Academy of Pediatrics.

BOSHES, BENJAMIN

Lecturer in Psychiatry

N. U. Med. School, 1930. Intern Cook County Hospital, 1930-32. Associate Professor of Nervous and Mental Diseases, N. U. Med. School; Assistant Attending in Neuropsychiatry, St. Luke's and Passavant Memorial Hospitals; Lt. Col. M. C., Army U. S. Senior Consultant in Neurology, V.A. Hospital, Hines, Ill. Certified by American Board of Psychiatry and Neurology. Member of Central Neuro-Psych. Assn.; Association for Research in Nervous and Mental Diseases.

BOYLE, HARRY H.

Lecturer in Pediatrics

Rush Med. Col., 1930. Intern Harper Hospital, Detroit, Mich., 1930. Municipal Contagious Disease Hospital, 1930-31, Children's Memorial Hospital, Chicago, 1931-32. Attending Pediatrician, St. Luke's Hospital; Associate Attending Pediatrician, Children's Memorial Hospital. Assistant Professor in Pediatrics, N. U. Med. School. Certified by the American Board of Pediatrics. Fellow A. M. A. Fellow American Academy of Pediatrics.

CLARK, JAMES WILSON

Lecturer in Ophthalmology

N. U. Med. School, 1931. Intern St. Luke's Hospital, 1931-32. Attending Ophthalmologist, St. Luke's Hospital. Assistant Clinical Professor of Ophthalmology, U. of I. Med. School. Fellow A. M. A. Certified Amer. Bd. of Ophthalmology.

CONROY, W. ALLEN

Lecturer in Anesthesia

U. of Alberta, Faculty of Medicine, Edmonton, Canada, 1936. Intern U. of Alberta Hospital, 1936-38. Resident in Anesthesiology, U. of Wis. 1938-41. Clinical Assistant Professor in Anesthesiology, U. of I. 1946-. Attending Anesthetist, V.A., Hines, Ill. American Board of Anesthesiology, 1943. Attending and Director of Anesthesia, St. Luke's Hospital. Member American Society of Anesthetists.

DETAKATS, GEZA

Special Lecturer in Advanced Medicine and Surgery

U. of Budapest, 1915. Master of Surgery, U. of Budapest, 1918. Intern University Clinics, Budapest, 1915-18. Prof. of Surgery, U. of I. Col. of Med. Clinical Prof. of Surgery, U. of I. Med. School. Civilian Consultant Great Lakes, Hospital, Great Lakes, Ill. Attending Surgeon, St. Luke's Hospital; Senior Consultant in Vascular Surgery, Veterans Hosp., Hines, Ill. Fellow A. M. A. Member Central Society for Clin. Research, American Heart Assn., Amer. Diabetes Assn.

DE YOUNG, VERNON R.

Lecturer in Pediatrics

U. of C. School of Medicine, 1913, Intern Indianapolis Methodist Hospital, 1931. Resident in Dept. of Pediatrics, U. of C., 1932-34. Courtesy Pediatrics Staff, Lying-In Hospital, U. of C. Certified by the American Board of Pediatrics, 1938. Fellow A. M. A. Dispensary St. Luke's Hospital.

DOUGHERTY, CLIFFORD L.

Lecturer in Ear, Nose and Throat Diseases

Rush Med. Col., 1924. Intern Presbyterian Hosp., 1924-26, and Resident 1926-27. Assoc. Consultant, Ear, Nose and Throat, Municipal Tuberculosis Sanitarium, 1928-30. Asst. Professor of Otolaryngology, Rush Med. Col., 1935-41. Assistant Professor of Otology and Laryngology, (Rush) U. of I. Col. of Med., 1941-44. Attending Otolaryngorhinologist, St. Luke's Hosp. Certified by Amer. Bd. of Otolaryngology, 1930. Fellow A. M. A. Member G. L.

EDWARDS, EUGENE A.

Lecturer in Gynecology

U. of I. Col. of Med., 1924. Intern St. Luke's Hospital, Chicago and Boston Lying-In Hospital, 1924-26. Attending Gynecologist, St. Luke's Hospital; Associate Professor of Gynecology and Obstetrics, N. U. Med. School. Diplomate American Board of Gynecology and Obstetrics. Member Central Association of Obstetricians and Gynecologists.

FINOLA, GEORGE C.

Lecturer in Obstetrics

U. of I. Col. of Med., 1927. Intern St. Luke's Hospital, Chicago, and Boston Lying-In Hospital, Boston, Mass., 1927-30. Attending Gynecologist and Obstetrician St. Luke's Hospital. Instructor in Obstetrics and Gynecology, N. U. Med. School. Certified by the American Board of Obstetrics and Gynecology. Fellow A. M. A.

FITZGERALD, MARY JANE

Lecturer in Occupational Therapy

B. S., Occupational Therapy, University of Wisconsin, 1947. Director, Occupational Therapy Department, St. Luke's Hospital, Chicago, 1948-.

GERTY, FRANCIS J.

Lecturer in Psychiatry

B. S., Loyola, 1920; M. D., Loyola U. School of Med., 1921. Intern Cook County Psychopathic Hospital, 1921. Medical Director, Cook County Psychopathic Hospital, 1922-41; Attending Neurologist, Cook County Hospital, 1932-41; Professor and Head of Division of Neuropsychiatry, Loyola U. School of Med., 1930-41; Professor of Psychiatry and Head of Dept., U. of I. Col. of Med., 1941 to date; Director Psychiatric Division, Illinois Neuropsychiatric Institute, 1941 to date; Attending Specialist in Neuropsychiatry, Edward Hines Jr., Hospital, U.S.V.B., 1940 to date; Attending Psychiatrist, St. Luke's Hospital, 1937 to date. Lt. Comdr., U.S.N.R. 1933 to date. Certified by the American Board of Psychiatry and Neurology. Fellow A.M.A. Member of Central Neuropsychiatric Association, American Psychopathological Association.

GOTTSTEIN, WERNER

Lecturer in Pediatrics

University Medical Schools, Jean and Berlin, Germany; Intern Hospital of Krankenhaus Westend, Berlin; Assistant Attending Pediatrician, St. Luke's Hospital and LaRabida Sanitarium, Chicago; Instructor in Pediatrics, N. U. Med. School; Certified by the American Board of Pediatrics.

GRAF, EDWIN C.

Lecturer in Urology

N. U. Med. School, 1940. Intern St. Luke's Hospital 1940-41. Resident, St. Luke's Hospital, 1941-43. Instructor in Urology, N. U., 1946-. Associate Staff, County Hospital. Associate Staff in Urology, Cook County Graduate School. Certified by American Board of Urology. Member American Urological Assn., F. A. C. S., A. M. A.

GRAUER, THEOPHIL P.

Lecturer in Syphology

Rush Med. Col., 1927. Intern St. Luke's Hospital, 1926-27. Associate Professor of Urology, N. U. Med. School; Attending Urologist, St. Luke's Hospital. Certified by the American Board of Urology. Fellow A. M. A.

GREELEY, PAUL W.

Lecturer in Advanced Medicine and Surgery

N. U. Med. School, 1928. Intern Evanston Hosp., 1927-28. Assoc. Clin. Professor of Surgery (Plastic Surgery) U. of I. Col. of Med.; Senior Attending Plastic Surgeon, Research and Educational Hospitals; Attending Surgeon (Plastic Surgery) St. Luke's Hosp.; Senior Consultant in Plastic Surgery, Veterans Facility, Hines. Reserve Consultant in Plastic Surgery, Bureau of Medicine and Surgery, U. S. Navy, Washington, D.C. Certified by Amer. Bd. of Plastic Surgery. Fellow A. M. A. Member Amer. Assn. of Plastic Surgeons, Amer. Society of Plastic and Reconstructive Surgery, Amer. Assn. for the Surgery of Trauma, Central Surgical Assn.

HAYDEN, HELEN C.

Lecturer in Pediatrics

Rush Med. Col., 1928. Intern Cook County Hospital, 1927-29. Intern Children's Memorial Hospital, 1929-30. Staff member, Children's Memorial Hospital, 1931-. Assistant Attending Pediatrician, St. Luke's Hospital. Diplomate of National Board of Medical Examiners 1929. Member A.M.A. Member American College of Allergists, American Academy of Allergy, International Assn. of Allergists.

HEDBLUM, CARL

Lecturer in Medical Diseases

Harvard Med. School, 1940. Intern Pennsylvania Hospital, Philadelphia, Pa., 1940-41. Resident, St. Luke's Hospital. Instructor in Medicine. N. U. 1947-Dispensary, St. Luke's Hospital.

HENN, S. C.

Lecturer in Pediatrics

Rush Med. Col., 1921. Intern Children's Memorial Hospital, 1921-23. Attending Pediatrician, St. Luke's Hospital. Associate, N. U. Med. School. Fellow A. M. A. Associate Chicago Pediatric Society. Certified by the American Board of Pediatrics.

HIRSCH, EDWIN F.

Lecturer in Pathology

Rush Med. Col., 1916. Intern Presbyterian Hospital, Chicago, 1916-17. Attending and Director of Henry Baird Favill Laboratory, St. Luke's Hosp. Assoc. Clin. Professor of Pathology, (Rush) U. of I. Col. of Med.; Research Assoc.—Assoc. Professor of Pathology, U. of C.; Member Advisory Board, Div. of Cancer Control of the Dept. of Public Health, State of Illinois. Certified by Amer. Bd. of Pathology. Fellow A. M. A. Member Cent. Society for Clin. Investigation, Amer. Society for Clin. Investigation, Amer. Society of Clin. Pathologists.

HOLINGER, PAUL H.

*Lecturer in Surgical Diseases and
Ear, Nose and Throat Diseases*

N. U. Med. School, 1933. Intern Albany General Hospital, Albany, N. Y., 1932-33. Resident, Research and Educational, U. of I. Col. of Med., Chicago, 1933-34. Assistant, Chevalier Jackson Bronchoscopic Clinic, Philadelphia, 1934-35. Attending Broncho-Esophagologist, St. Luke's Hospital. Attending Broncho-Esophagologist, The Children's Memorial Hospital and Research and Educational Hospitals, U. of I. Col. of Med. Certified by the American Board of Otolaryngology. Fellow A. M. A. Member, American College of Chest Physicians; Member American Broncho-Esophagological Assn. Member, American Assn. for Thoracic Surgery.

LAMBERT, CLAUDE N.

Lecturer in Orthopedics

Rush Med. Col., 1928. Intern St. Luke's Hospital, 1927-29. Attending Orthopedic Surgeon, St. Luke's Hospital. Attending Orthopedic Surgeon, U. of I. Research and Educational Hospitals. Certified by the American Board of Orthopedic Surgery. Member of American Academy of Orthopedic Surgery.

LEROY, GEORGE VEACH

Lecturer in Hematology

U. of C., 1934. Intern St. Luke's Hospital, 1934-35. Associate Attending Physician, St. Luke's Hospital.

LINDQUIST, JOHN L.

Lecturer in Surgical Diseases

Rush Med. Col., 1933. Intern St. Luke's Hospital, 1933-35. Associate in Surgery, N. U. Med. School, 1939-46; Assistant Professor of Surgery, N. U. Med. School, 1946-. Associate Attending Surgeon, St. Luke's Hospital. Certified by the American Board of Surgery. Fellow A. M. A.

MACKAY, ROLAND P.

Lecturer in Neurology

U. of Toronto, 1925. Intern Henry Ford Hospital, Detroit, 1925-26. Attending Neurologist, St. Luke's Hospital; Associate Professor of Neurology, U. of I. Col. of Med., 1934-43. Certified by the American Board of Psychiatry and Neurology. Professor of Neurology, U. of I. Col. of Medicine, 1943-. Fellow A. M. A. Member Central Neuropsychiatric Association.

MCMILLAN, ROBERT G.

Lecturer in Psychiatry

U. of I. Col. of Med., 1930. Intern St. Luke's Hospital, 1930-31. Resident, St. Luke's Hospital, 1931-32. At present, Associate Attending Neurologist, St. Luke's Hospital; Assistant Neurologist, (Rush) U. of I. Col. of Med. Fellow A. M. A.

MEREDITH, PAUL A.

Lecturer in Medical Diseases

N. U. Med. School, 1943. Intern St. Luke's Hosp., 1934-44. Navy M.C., 1944-46. Resident, U. of I. Research and Educational Hospital, 1946-49. Assistant Clinical Instructor in Medicine, U. of I. Assistant Attending Physician, Clinical Staff, Research and Educational Hospital, U. of I. Member A.G.L., A.M.A. Dispensary, St. Luke's Hospital.

MURRAY, DON E.

Lecturer in Urology

N. U. Med. School, 1937. Intern St. Luke's Hospital, Associate in Urology, N. U. Med. School. Associate Attending Urologist, St. Luke's Hospital. Member of A. M. A.

NORCROSS, JOHN RUGER

Lecturer in Orthopedics

N. U. Med. School, 1931. Intern St. Luke's Hospital, 1931-33. Resident, New York Orthopedic Hospital, 1933-35. At present, Instructor in Bone and Joint Surgery, N. U. Med. School; Senior Attending Orthopedic Surgeon, St. Luke's Hospital; Consulting Orthopedic Surgeon, Chicago Municipal Tuberculosis Sanitarium. Certified by the American Board of Orthopedic Surgery. Fellow A. M. A.

OLIVER, RICHARD M.

Lecturer in Dermatology

N. U. Medical School 1941., Intern U. of Michigan Hosp., Ann Arbor, 1941-42. Fellow in Dermatology U. of I. Med. School, 1946; Instructor of Dermatology U. of I. Med. School, 1949-50. Instructor of Dermatology, N. U. Med. School, 1950-. Dispensary, St. Luke's Hospital.

PHIBBS, BRENDAN P. *Special Lecturer in Advanced Medicine and Surgery*
N. U. Med. School, 1941. Intern St. Luke's Hospital, 1941. Instructor N. U. Med. School, 1950-. Member of Board of Internal Medicine. Dispensary, St. Luke's Hospital.

PHILLIPS, FREDERICK L. *Lecturer in Pediatrics*
U. of I. Col. of Med., 1942. Intern Milwaukee County Hosp., Milwaukee, Wis. Resident, Municipal Contagious Disease Hospital, 1946; Resident, Children's Memorial Hospital, 1947. Dispensary, St. Luke's Hospital. Member American Academy of Pediatrics. Member American College of Pediatricians.

STEPAN, CHARLES EDWARD *Lecturer in Pediatrics & Communicable Diseases*
Loyola University School of Medicine, 1933. Intern Cook County Hospital, 1932-35. Ass't. Attending Pediatrician, St. Luke's Hospital; Clinical Associate Loyola University School of Medicine. Fellow A. M. A.

THEOBALD, PIERCE WILLIAM *Lecturer in Ear, Nose and Throat Diseases*
N. U. Med. School, 1943. Intern St. Luke's Hosp., 1942-43. Asst. Clinical Professor in Laryngology, Rhinology, and Otology, U. of I. Col. of Med.; Assistant Attending Laryngologist, Otologist, and Rhinologist, Out Patient Dept., St. Luke's Hospital.

THEOBALD, WALTER H. *Lecturer in Ear, Nose and Throat Diseases*
Rush Medical College, 1911. Intern St. Luke's Hospital, 1911. Attending Rhinologist and Otolaryngologist, St. Luke's Hospital. Associate Clinical Professor, Ear, Nose and Throat Department, U. of I. Col. of Med. Certified by American Board of Otolaryngology. Fellow A. M. A.

TRAVIS, REV. WILLIAM TURTON *Lecturer in Ethics*
Seabury Divinity School, Faribault, Minnesota, 1918; (Now Seabury-Western Theological Seminary, Evanston, Ill.) Rector Grace Episcopal Church, Chaplain, St. Luke's Hospital 1930-.

URSE, VLADIMIR G. *Lecturer in Psychiatry*
N. U. Med. School, 1930. Intern Cook County Hosp., 1930-31. Asst. Psychiatrist, Cook County Psychopathic Hosp., 1935-41. Supt. and Medical Director Cook County Psychopathic Hosp.; Senior Staff, Alexian Brothers' Hosp.; Assoc. Attending Staff St. Luke's Hosp.; Assoc. Clin. Professor, Dept. of Neurology and Psychiatry, Loyola U. School of Med. Certified by Amer. Bd. of Psychiatry and Neurology. Fellow A. M. A. Member Central Neuropsychiatric Assn., Amer. Psychopathological Assn.

WAKEFIELD, HOWARD *Special Lecturer in Advanced Medicine and Surgery*
Rush Med. Col., 1924. Intern Cook County Hosp., 1925. Senior Attending Physician St. Luke's Hospital; Assoc. in Medicine, N. U. Med. School; Certified by the Amer. Bd. of Internal Medicine (Sub-specialty Cardiovascular Disease). Fellow A. M. A. Member Amer. Assn., Amer. Assn. of the History of Medicine, Amer. Society of Tropical Medicine, Amer. Therapeutic Society, Gerontological Society.

WALDROP, WILLIAM F. *Lecturer in Ear, Nose, and Throat Diseases*
B. S., James Millikin University, Decatur, Ill., 1929; M. A., University of Iowa, Iowa City, 1940; Graduate study, N. U., 1946-. Training Specialist in charge of the Rehabilitation of Hard of Hearing & Speech Correction, Special Rehabilitation Procedures, Ill. Reg. Office, V.A., Chicago, 1947-. Director Audiology and Speech Rehabilitation Service, St. Luke's Hospital. Member, Acoustical Association of America. Clinical Member, American Speech and Hearing Assn.

WILLIAMS, ROBERT E.

Lecturer in Pediatrics

N. U. Med. School, 1931. Intern Harper Hospital, Detroit, Mich., 1930. Children's Memorial Hospital, Chicago, 1931. Resident, Municipal Contagious Disease Hospital, Chicago, 1932. Attending Pediatrician, St. Luke's Hospital. Certified by the American Board of Pediatrics.

WILLIS, JOAN

Lecturer in Physical Therapy

University of Manitoba, Winnipeg, Canada, 1938-41. Diploma in Physical Therapy, Bouve, Boston School of Physical Education, 1944. A.M.C., 1944-46. Herman Keifer Hospital, Detroit, Mich., 1946-47. Lutheran Hospital, Hot Spring's, South Dakota, 1947-48. Hackley Hospital, Muskegon, Mich., 1949-50. Chief Physical Therapist, St. Luke's Hospital, 1951-.

WITKOWSKI, LEON J.

Lecturer in First Aid

N. U. Med. School, 1938. Intern St. Luke's Hosp., 1938. Dispensary St. Luke's Hospital. Certified American Board of Surgeons 1950.

SCHOOL OF NURSING

HISTORY

ST. LUKE'S HOSPITAL was founded in February, 1864, under the leadership of Dr. Clinton Locke, Rector of Grace Episcopal Church 1849-1895. Later that same year the Hospital became incorporated. In the words of Dr. Locke, "We found a small wooden house on State Street, near Eldridge Court, where by crowding we could put up seven beds. It was a pleasant little place with grass and flowers and one or two poplar trees." In 1871 the hospital moved about three blocks to Indiana Avenue and occupied a part of the present site. Through the efforts of the many friends of the hospital, still under the leadership of Dr. Locke, a well designed hospital was completed by 1891 with a capacity for 152 patients. An urgent need for a private patient pavilion developed. In 1908 the George Smith Memorial Building was erected on Michigan Avenue adding accommodations for 110 patients, and in 1925 a 21 story building was erected on Indiana Avenue, replacing in part the building of 1871. At present there are accommodations for 568 patients and 55 newborn babies. In 1949, the Sterling Morton Clinic Building was opened. There were 67,290 Clinic visits in 1950. In November of 1950, the Audiology and Speech Correction Service opened. This new department provides services for the evaluation of the functioning of the speech and hearing mechanism, and recommends and provides the necessary correction and training needed to rehabilitate those with speech and hearing difficulties.

The School of Nursing was established in 1885 as St. Luke's Hospital Training School for Nurses. The Blue Cross Society was organized in 1889—an organization of fellowship and inspiration for student nurses and graduates alike. 1893, the year of the Chicago World's Fair, in June, a group of 18 superintendents of nurses from prominent hospitals in the country met together at St. Luke's Hospital in the sitting room of Miss Katherine Lett, Superintendent of Nurses at St. Luke's, to form the Society of American Superintendents of Training Schools for Nurses; in 1912 the name was changed to National League of Nursing Education. In 1895 the Alumnae Association was organized and in 1896 the "blue cross" on the left sleeve, earned after the first year of schooling, became a part of the uniform. In 1898, through the will of Mrs. Edward S. Stickney, the Elizabeth Hammond Stickney Memorial Building was opened, "dedicated to the education of young women in the art of nursing." The building contained classrooms, living accommodations for students and faculty. In 1940 the name of the school was changed to St. Luke's Hospital School of Nursing, and in the same year the School of Nursing was included in the first list of Schools of Nursing Accredited by the National League of Nursing Education. May,

1943, saw the dedication of the Schweppe Memorial Residence, made possible largely through the leadership of Mr. Charles H. Schweppe (deceased) formerly President of the Board of Trustees. Substantial contributions were received from many friends of St. Luke's. The residence, which includes three additional floors added to the wing in 1944 through federal assistance, and the sixth floor added to the wing in 1947 through a bequest from Mrs. Emily Gary, houses the school as well as living facilities for 319 students and faculty. In 1949 the school became affiliated with the University of Illinois and now offers the 4½ year program leading to a Bachelor of Science degree in Nursing from the University of Illinois, as well as the diploma program.

ACCREDITATION

The School of Nursing is accredited by the National Nursing Accrediting Service and is approved by the Department of Registration and Education of the State of Illinois. This means that the school meets the high standards of the National Nursing Accreditation for curriculum, faculty preparation, facilities and clinical experience, and that graduates are eligible for licenses in Illinois and other states. The hospital is approved by the American Hospital Association, the American Medical Association and the American College of Surgeons. It is also approved by the American Medical Association for experience for both internes and residents.

PURPOSE OF THE SCHOOL

The purpose of the school is: to maintain a standard of ideals commensurate with the needs of today and tomorrow worthy of the high ideals cherished by the founders; to accept well selected applicants, then to provide them with an educational program which will direct and stimulate their growth as individuals and professional nurses; to develop a clear understanding of the fundamental principles which underlie all good nursing; to give professional education to young women in the art of caring for the sick in the hospital and in the community with emphasis on the prevention of disease and an understanding of the social problems affecting health; to promote a professional attitude in relation to nursing education and to contribute to the ever changing needs of society.

THE PROGRAM OF ST. LUKE'S HOSPITAL SCHOOL OF NURSING IN AFFILIATION WITH THE UNIVERSITY OF ILLINOIS

The University of Illinois offers a program leading to the Bachelor of Science in Nursing with the University of Illinois and St. Luke's Hospital. The Coordinator of the affiliation program is Miss Emily C. Cardew, who also acts as an advisor for pre-nursing students. Her office is located at the Chicago Undergraduate Division, Navy Pier, Chicago 11, Illinois.

Students may take the pre-nursing curriculum at the Urbana campus, at the Chicago Undergraduate Division at Navy Pier, or at

any other accredited college. On completion of 60 semester hours of prescribed college work, the student may apply for admission to the school of nursing. The student who progresses satisfactorily may complete the professional program in 30 months.

Students are advised to complete the pre-nursing curriculum before entering the professional program, if possible. Those who do so benefit greatly from the maturity, knowledge, and educational discipline developed in the college program. Adjustment to the professional program will then come much easier.

Graduate nurses may become candidates for the degree of Bachelor of Science in Nursing provided that: they are eligible for admission to the pre-nursing curriculum at the University of Illinois; they are graduates of the three-year program at St. Luke's Hospital School of Nursing; and they matriculated in St. Luke's Hospital School of Nursing after the date on which it was accredited by the National League of Nursing Education. Nurses who graduated from St. Luke's Hospital School of Nursing prior to May, 1949, are required to complete at least 30 hours in residence at some college or school of the University of Illinois other than the School of Nursing.

ADMISSION REQUIREMENTS FOR PRE-NURSING CURRICULUM

Students entering the pre-nursing curriculum must meet the requirements for admission to the general curriculum in the College of Liberal Arts and Sciences and, in addition, present credit (high school level) in the following subjects: (1) one year of elementary algebra; (2) one year of plane geometry.

Students who are deficient in mathematics but are otherwise qualified for the general curriculum in the College of Liberal Arts and Sciences may register therein, remove their mathematics deficiencies, and then transfer to the pre-nursing curriculum.

Admission to the pre-nursing curriculum is restricted to students 16 to 28 years old. Students 28 to 33 years old may enter subject to the approval of the nursing advisory committee. The age requirement does not apply to graduate nurses.

THE PRE-NURSING CURRICULUM	<i>Semester Hours</i>
Rhetoric and Composition	6
Social Sciences (including the equivalent of a course in sociology and a course in psychology)	12
Humanities	6
Chemistry (one year of general and one semester of organic chemistry)	10
Biological Sciences (including a course in bacteriology)	8
Physics (a course especially designed for nurses or a year of college physics)	4
Electives (one year of foreign language recommended)	14
Physical Education (four semesters)	
Total	60

SUMMARY OF FEES AND EXPENSES

Estimated expenses for undergraduate students, exclusive of such variable items as clothing, railroad fare, and recreation, are given in the budgets below. These budgets cover two semesters for students who are residents of Illinois. For those who are not residents of Illinois the tuition is higher. *Note:* Since no room and board facilities are provided at the Chicago Undergraduate Division, the last three items listed in the budgets below do not apply to students enrolled at Navy Pier.

TUITION AND FEES	<i>Minimum</i>	<i>Moderate</i>
Tuition and fees.....	\$116	\$116
Textbooks.....	35	45
Other school supplies.....	14	18
Room and board (Which will range from \$60 to \$75 a month—here figured for nine months. No room and board facilities are provided at the Chicago Undergraduate Division.).....	540	675
Laundry (mailed home).....	9	9
Miscellaneous.....	20	90
Total Two Semesters.....	\$734	\$953

For further details of the University of Illinois section of the program, write Miss Emily C. Cardew, Coordinator whose address is listed above.

REQUIREMENTS FOR ADMISSION TO THE DIPLOMA PROGRAM AND INFORMATION FOR DEGREE AND DIPLOMA STUDENTS

Applicants for admission to St. Luke's Hospital School of Nursing must obtain application forms to be filled out and returned to the Director of the school. Classes are admitted semiannually in September and in February. Each applicant must present credentials showing the completion of a four year course from a high school approved by the North Central Association of Colleges and Secondary Schools, or some comparable accrediting agency.

In the selection of students preference is given to those who show evidence of advanced education, high scholastic achievement and outstanding cultural advantages.

Admission is limited to applicants between 17½ and 35 years of age, who can show testimonials of good character and seriousness of purpose. The School considers it inadvisable as a general practice, to admit or retain married women in the student body, and reserves the right, after full consideration of each case, and after consultation with all parties concerned in the arrangement, to admit, readmit, retain or dismiss a student or applicant.

The advisable high school program for students in nursing constitutes the following courses:

- English—4 credits; Foreign Language—2 to 4 credits;
- Science—2 to 4 credits, chemistry required; Mathematics—2 to 3 credits;
- Social Science (History, Civics, Government)—2 to 4 credits;
- Electives (Music, Art, Domestic Science)—A maximum of 4 credits

Scholarships

There are a limited number of scholarships available for well qualified applicants.

Health—requirements for all entering students

The applicant is required to present a report of satisfactory health made by her family physician and a statement from her dentist testifying as to the satisfactory condition of her teeth. Certification showing immunization against smallpox and typhoid fever is also required of all accepted applicants. Forms for the above are supplied by the school. All remedial physical defects are to be corrected before entrance.

EXPENSES

Registration Fee

Students who have been accepted by the School pay a registration fee of ten dollars (\$10.00) in advance.

Itemized List of Expenses	Year of School Program		
	1st year	2nd year	3rd year

PAYMENT OF EXPENSES

Before entrance, Registration Fee.....	\$ 10.00
On Admission.....	215.23
Beginning of 2nd term, 1st year.....	15.00
Beginning of 2nd year.....	46.40
Beginning of 3rd year.....	35.00
For students with V.N.A. Affiliation.....	25.00
Total for students with V.N.A. Affiliation.....	\$346.63
Total for students without V.N.A. Affiliation.....	\$321.63

24 senior students with acceptable scholastic standing and an interest in public health nursing may have two months' experience with the Visiting Nurse Association of Chicago. This requires an additional fee of \$25.00 payable to the Visiting Nurse Association at time of affiliation.

The fees are not refunded if a student withdraws from the school or is dismissed, and these fees are not refunded if a student is not retained in the school because of inferior class work or for either physical or social incapacity. One exception is made to the foregoing. If a student is asked to withdraw by the school during her first two weeks of schooling all fees are refunded excepting the registration fee and the first year's health fee, and a flat charge of \$3.00 per day for room and board is made. Adjustments, when possible, will be made on text books and incidentals. Amounts due at the beginning of the second and third years must be paid on or before the registration date as no student will be allowed to continue who is delinquent in payment of school fees.

The School provides the complete uniform.

GENERAL INFORMATION

Personal Expenses

The student's personal expenses will depend upon her individual taste and financial means. There is no way student nurses may earn money while pursuing their studies, as their entire time is occupied in carrying out the school program. With careful planning most students manage on \$15.00 a month for incidental expenses.

STUDENT HEALTH PROGRAM

The health program is conducted under the direction of the Health Supervisor who endeavors to teach the students principles of personal hygiene and their practical application in the promotion of health. Upon arrival each student is given a careful physical examination, including an x-ray of the chest, and an orthopedic examination.

Students are urged to report promptly any indisposition. When ill they are hospitalized and attended by members of the Medical Staff of St. Luke's Hospital. The School of Nursing, however, will not assume responsibility for medical care for illness due to conditions which existed prior to the student's entrance into the School. The hospital will supply hospitalization in case of illness, but this will not exceed three months during the entire three year course.

Health examinations are given each year, and recommendations for the welfare of each student are carefully followed.

Time lost because of illness must be made up, but all students are given a two weeks' illness leave at the end of the nursing education program.

VACATION AND ABSENCE

Students are allowed four weeks of vacation during the first, second, and third year, a total of 12 weeks during the three years (14 days in the third year for students completing their professional program in 2½ years). Vacations are usually planned during the months of June, July, August, and September of each year. Students are not permitted an extension of vacation time, and will be considered on leave of absence if they do not return on scheduled time. They will then be reinstated in the school upon approval by the faculty. Neither are students permitted to be absent from the school for personal reasons, except in the case of extreme illness of members of their immediate families. Students are not granted leaves of absence to nurse relatives.

RELIGIOUS INFLUENCE

While St. Luke's Hospital was founded under the direction of leaders in the Episcopal Church, the School and Hospital are now non-sectarian. Grace Episcopal Church is located immediately to the south of the Indiana Avenue Building and is closely affiliated with the hospital. Preclinical students are required to attend chapel services one afternoon a week; all students are required as a part of their school program to attend chapel on Wednesday evening.

Special chapel services celebrating "Milestones" in student achievement:

Uniform Services.....	Recognition of the day the students receive their preclinical uniforms.
Capping.....	The completion of the Preclinical term.
Blue Crosses.....	At the successful completion of the first year.
Senior Linen.....	At the successful completion of the second year.
Baccalaureate.....	Spiritual dedication of the nursing career.
*Graduation.....	Presentation of diplomas and pins.
Going-Out.....	The individual students completion of education.

*Graduation.....Held at St. James Church.

THE RESIDENCE AND STUDENT ACTIVITIES

In 1943 the Laura and Charles Schweppe Memorial Residence was completed and now houses all students in the school. The first floor is planned to offer a colorful and homelike atmosphere for the full social program which the students enjoy. There are small beaux parlors, a party room, a room where buffet suppers and daily afternoon teas are served, and the large Ryerson Lounge. In this Lounge, with open fireplaces at either end, are held many class parties, monthly "All School Dances," Sunday Night Suppers, weekly chorus rehearsals, etc. On the ninth floor is an informal lounge and a sun deck, and on all floors of the residence lounges and kitchenettes for student use. Most of the students live in single rooms, although there are still a few triple rooms which were built during the war emergency. The building, as well as the social program, have been carefully planned to give students an experience in gracious living.

The Co-operative Government Association was established in the Spring of 1940. Each student in the school has a responsibility and a privilege as a member of this organization. The purpose of the association is to assist students, through actual experience, in achieving a constructive way of life based upon respect and consideration for the principles of good social living.

All classes in the school are represented on the Student Council which is the executive board of the association, as well as the Rules and Regulations, the Finance and the Social Committees. All standing committees meet once a month in the party room and the entire student body attends the large Co-operative Government Association meetings in the lounge three times a year.

The "Yard" at the west of the residence affords a play place during the summer months, and a chance for the students to be outdoors in the sunshine when they have free time. An outdoor fireplace is a favorite rendezvous for wiener roasts and picnics; archery, volley ball, badminton and croquet are all available.

Through the constant interest and generosity of the Nursing Council, as well as through individual members, the social and resident life of the student nurses is made as attractive and comfortable as possible.

SCHOLASTIC STANDARDS

Students must successfully pass all courses presented in the pre-clinical term, and also demonstrate their aptitude and personal fitness for nursing in order to be promoted to the second term. Students who pass all examinations but whose general average is low, who have demonstrated their ability and personal fitness for nursing, may, at the discretion of the faculty, be promoted to the second term on a conditional basis.

Upper class students must maintain a satisfactory average in both theory and nursing practice. Written examinations are given at the conclusion of each course, upon which a grade of 75% is required for credit. A student whose average for a course is between 70–75%, may at the discretion of the faculty be allowed to repeat the examination. A student whose average for the course is below 70% must repeat the course. No student may repeat a course more than once. A fee of five to ten dollars is charged for each repeat examination or course, the amount of the fee to be determined by the length of the course.

A student who fails in a course, or who fails to maintain a satisfactory average in theory, nursing practice, or both, will be placed on a conditional basis. The student is expected to remove herself from the conditioned basis by maintaining a satisfactory average in the following term. The faculty will make every effort to assist the student by guidance and individual assignments.

A student who fails more than one course in a term, or who remains on a conditional basis in either theory or nursing practice for more than one term, will have her record reviewed by the executive committee of the faculty. In general this will lead to dismissal from the school.

The faculty of the school of nursing reserves the right to cancel the admission of any student who seems to be unsuited for the nursing profession, and to require the withdrawal of any student when, in its judgment the interest of the school requires it.

LOAN FUND

A loan fund has been established by Mr. Charles H. Schweppe, former President of the Board of Trustees of St. Luke's Hospital. After the completion of the first year in the school, small loans are available to students who need financial assistance and who have demonstrated a particular fitness for nursing.

AWARDS

In accordance with terms of the particular gifts, there are ten special awards offered to students upon graduation from St. Luke's Hospital School of Nursing. They are the following:

The Charles H. Schweppe Memorial Award is offered for the most outstanding student in psychiatric nursing.

The A. Watson Armour Award is given to one of the two most outstanding nurses in Medical and Surgical Nursing.

The Medical Staff Award is given to one of the two most outstanding nurses in Medical and Surgical Nursing.

The Mrs. Charles H. Morse Honor Award is offered annually to a student who ranks as the most outstanding nurse in theory and practice.

The Martha Hughitt McCullough Memorial Award is given annually to a student who demonstrates excellence in bedside nursing.

The Harriet Fulmer Award is awarded annually to a student in the graduating class with the highest scholastic standing.

The Mrs. John W. Gary Award from the Woman's Board is given to the most outstanding nurse in obstetrical nursing.

The Margaret McFadden Willing Memorial Award for outstanding citizenship.

The Woman's Board of St. Luke's Hospital Award is offered each year to a student showing outstanding ability as an operating room nurse.

The Woman's Board of St. Luke's Hospital Award is given annually to the most outstanding nurse in pediatric nursing.

GRADUATION AND AFTER

The diploma and pin of the school are granted to students who have successfully completed the required course in nursing. Commencement exercises are held at the close of the school year. The hospital and school continue to be interested in the nurse after graduation and endeavor to give her assistance in securing desirable positions in the phase of nursing she is best qualified to enter.

In order to practice as a Registered Nurse, graduates are required to pass the examination given by the Department of Registration and Education of the State of Illinois or other states. This entitles the nurse to registration by reciprocity in other states.

All graduates of the School in good standing who are registered nurses are eligible for membership in the St. Luke's Hospital School of Nursing, Alumnae Association, and are urged to become members of the American Nurses Association through the District in which they reside. Nurses engaged in educational work are advised to join the National League of Nursing Education and those engaged in Public Health Nursing to join the National Organization for Public Health Nursing. Membership in professional organizations is a "must" for all registered nurses in order that each nurse may participate in the formulation, development and maintenance of professional standards.

EDUCATIONAL AND CLINICAL FACILITIES

Two classrooms, three laboratories, the library and educational offices are located on the first floor of Schweppe House. The laboratories, chemical, physiological and dietary are provided with charts, models, microscopes, and equipment necessary for demonstration purposes and student participation. The classrooms are equipped for visual education, and the use of educational sound films, slides and charts is a frequent supplement to the lecture courses.

The library is attractively furnished, and provides a collection of 2,353 professional books, 30 current professional magazines, as well as 1400 books, magazines and papers of current or literary interest. The resources of the medical library comprising 2000 medical texts and monographs and 160 current medical journals, are available through requisition.

The nursing arts laboratory is located in the hospital. This laboratory is planned to correspond to a typical hospital ward, and is equipped for the demonstration and student practice of all basic nursing procedures.

The clinical facilities consist of eleven very active medical and surgical units, a dietary department where application of diet therapy

is practiced, fourteen operating rooms in which about 12,000 operations are done a year, and an active service in obstetrics, pediatrics and neuro-psychiatry.

In 1950 St. Luke's Hospital admitted 17,383 patients with a wide variety of diagnoses and requirements for highly specialized treatments. The clinical nursing education program is centered in the nursing care of these patients.

The Out Patient Department conducts clinics in the following specialties: medicine, surgery, obstetrics, pediatrics, orthopedics, gynecology, genito-urinary, neurology, ophthalmology, otology, laryngology, rhinology, bronchology and dermatology.

In addition, the clinical resources are supplemented by an affiliation with the Municipal Contagious Disease Hospital as well as a public health affiliation with the Visiting Nurse Association of Chicago.

THE BASIC PROGRAM IN NURSING

Two groups of students are admitted to the school yearly, and the length of the nursing program is three years, inclusive of 12 weeks of vacation and a 2 week illness leave.

The first term is essentially a preclinical period, in which the biological, the physical, and the medical and social sciences are studied. This group of courses is integrated with the elementary techniques in nursing, and when evidence of adequate theoretical knowledge, and nursing skill is demonstrated, experience is given in the wards, under constant supervision.

The second term of the first year is devoted to classroom instruction and clinical experience in all phases of medical and surgical nursing, diet kitchen experience and practice in operating room procedures.

In the first and second terms of the second year, emphasis is placed upon the principles and practical experience of obstetrical, pediatric and psychiatric nursing.

During the two terms of the third year, all students receive additional classroom and clinical experience in communicable diseases through an affiliation with the Municipal Contagious Disease Hospital, and students receive clinical instruction and experience in Public Health Nursing in the Sterling Morton Clinic or upon selection by affiliation with the Visiting Nurse Association of Chicago. Then, advanced work in theory and practice is given in medical and surgical nursing, to complete the three year program.

DESCRIPTION OF COURSES

BIOLOGICAL AND PHYSICAL SCIENCES

Anatomy

Lectures, laboratory work and demonstrations are designed to give the student a fundamental knowledge of the structures and pertinent relationships between the structures comprising the anatomical scheme of the body. Microscopic demonstrations, animal dissection, museum preparations are shown in the laboratory. The course covers instruction on the skeletal, neuro-muscular, cardiovascular, respiratory, digestive, genito-urinary, and endocrine systems of the body. The course is designed as a basis for understanding the physiology of these systems as well as for a foundation for advanced nursing education as a whole. First year, first term. (Lecture, 32 hours, laboratory 24 hours.) Mrs. Mateo and assistant.

Physiology

Lectures, laboratory work and demonstrations are planned to enable the student to understand the normal behavior and functions of the anatomical structures of the body as a basis for future comprehension of disease conditions. First year, first term. (Lectures, 38 hours, laboratory, 16 hours.) Mrs. Mateo and assistant.

Microbiology

Lectures and laboratory work designed to give the students fundamental understanding of pathogenic organisms, their growth and destruction. Special emphasis is placed on public health aspects, modes of infection, prevention, also diagnosis and treatment of infectious diseases from the standpoint of bacteriological tests, vaccines and serums. First year, first term. (Lectures, 36 hours, laboratory and demonstrations, 24 hours.) Mrs. Mateo and assistant.

Chemistry

This course, consisting of lectures and laboratory work represents a careful selection of content from general inorganic, organic and physiological chemistry, and the application of the principles of chemistry to nursing. First year, first term. (Lectures, 36 hours, laboratory, 24 hours.) Miss Rasmussen and assistant.

SOCIAL SCIENCES

History of Nursing I

This course offers an introduction to the field of nursing, with emphasis on the development of the ethical and philosophical principles of nursing, as a basis for understanding nursing ethics and ideals. First year, first term. (Lectures, 15 hours.) Miss Roberts.

Professional Adjustments I

This course provides an introduction to the personal and professional problems of nursing, the development and status of ethical and philosophical principles related to nursing. The principles of working out professional problems, individual and group relationships. The student's responsibility for her personal hygiene. First year, first term. (Lectures and discussions 15 hours.) Miss McConnell, Miss Roberts, Mrs. Bell, Miss Molbo, and special lecturers.

Professional Adjustments II (Includes History of Nursing II).

This course traces the development of nursing as a profession with emphasis on the influence of economic and social factors in the development of nursing as a basis for understanding current professional problems. The student is introduced to the vocational opportunities in nursing, the professional nursing organizations, and the responsibilities of the individual nurse, as a professional woman to herself, society, and the professional group. (Lectures and discussions 45 hours.) Miss McConnell, Miss Roberts and special lecturers.

Sociology I

This course deals with modern social conditions and is designed to give the student nurse a practical knowledge of the methods of safeguarding and protecting the life of individuals and of the community with special reference to housing, employment, the family, nationality and social groups. First year, first term. (Lectures and field trips, 30 hours.) Mr. Mauksch.

Sociology II

Classes in the history of Public Health Nursing, problems and trends in connection with official and non-official agencies and the vocational aspects of the field. Special emphasis is placed on the recognition of health problems in the family and the community, the use of community resources in meeting the needs of the individual and the teaching of health in the family. Third year, first term. (Lectures, 30 hours) Miss Gooch.

Psychology

This course deals with the principles of study and of learning processes and the general principles of behavior, emphasizing the application of these principles to the larger social problems of the entire nursing field. First year, first term. (Lectures, 30 hours.) Miss Roberts.

NURSING AND ALLIED ARTS

Nursing Arts

By means of lecture-demonstrations, supervised laboratory and ward assignments, the basic scientific principles underlying general nursing activities are presented to the student. Emphasis is placed upon individualization of nursing care, including social and hygienic aspects which may be applied by the student for both her own and her patients' welfare. The course includes Pharmacology I (30 hours), and an introduction to Occupational Therapy, Physical Therapy, the writing of Nursing Care Studies, and the organization of nursing care. First year, first term. (Lectures—143 hours; Laboratory—86 hours; Ward Practice—136 hours.) Mrs. Mauksch, assistants, and special lecturers.

Pharmacology II (Materia Medica and Therapeutics)

This course is planned to teach the origin, action, dosage, method of administration, symptoms of overdosage, and clinical uses of the various substances used to maintain and regain health. It is taught by lecture, discussion, and presentation of case studies. First year, second term. (Lectures, 30 hours.) Mrs. Richardson.

Introduction to Medical and Surgical Nursing

An introduction to the principles of nursing care in medical and surgical diseases, emphasizing the nursing responsibilities in observation, treatment and assisting in diagnostic procedures. First year, first term. (Lectures and demonstrations, 20 hours.) Miss Van de Steeg and Mrs. Richardson.

Nutrition I

This course, consisting of lectures and laboratory work on the preparation of normal, balanced diets for adults, is based on the principles of normal nutrition and the application of these principles to individuals and family groups. First year, first term. (Lectures, 15 hours; laboratory, 30 hours.) Mrs. Castellanos

Nutrition II

A study of therapeutic diets, the underlying principles and theories of modern methods in the treatment of disease, such as diabetes, nephritis, etc. First year, second term. (Lectures, 15 hours.) Mrs. Castellanos..

Principles of Medicine

A course of lectures which presents the etiology, pathology, symptomatology treatment and prognosis of the common medical conditions. First year, second term. (Lecture—30 hours.) Dr. Meredith and special lecturers.

Principles of Medical Nursing

A course of lectures and demonstrations dealing with the principles of nursing care required by patients with medical conditions. The social and public health aspects, and the nurses' role in prevention, are emphasized. First year, second term. (Lecture and demonstrations—30 hours.) Miss Amesbury and special lecturers.

Principles of Surgery

(a) A course of lectures and discussions in surgical diseases dealing with the pathology, disturbed physiology and the predisposing causes of the diseases treated by surgery, and the principles of anesthesia. (Lectures, 24 hours.) Dr. J. L. Lindquist and Dr. Conroy.

(b) A course dealing with orthopedic surgery and fractures. (Lectures, and clinics, 10 hours.) Dr. Norcross, Dr. Lambert.

(c) A course of lectures dealing with gynecological conditions, the physiological aspects, pelvic infections, benign and malignant tumors, operative procedures and the care of preoperative and postoperative patients. (Lectures, 12 hours.) Dr. Edwards and Dr. Beebe.
